DETAILED ACTION

- I. Claims 1-27 are pending.

Election/Restrictions

- II. Restriction to one of the following inventions is required under 35 U.S.C. 121 and 372:

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1:

1. Claims 1-11 and 26-27, drawn to an isolated nucleic acid sequence comprising the nucleotide of SEQ ID NO: 1 or a degenerate variant of SEQ ID NO: 1, expression vector comprising said nucleic acid sequence, culture cell and a method of producing a protein using said nucleotide.
2. Claims 12-25, drawn to a purified IgE binding immunogenic polypeptide comprising the amino acid sequence selected from the group consisting of SEQ ID NO: 4-25, a test for detecting cashew allergy in a patient comprising contacting the patient with an amount of a purified polypeptide comprising SEQ ID NO: 3.

The inventions listed as Groups 1-2 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Wang et al (J Allergy Clin Immunol 110: 160-6, 2002; PTO 892) teaches a degenerate variant of cashew allergen of the claimed SEQ ID NO: 1 (see entire document, page 162, sequence in Figure 1A, in particular). Wang et al teach expression vector and host cell such as E coli BL21 and a method of producing the reference protein (see page 161, col. 1, Cloning, Expression and purification of cDNA-encoded proteins, in particular). Thus the reference teachings anticipate the claimed invention.

Since Applicant's inventions do not contribute a special technical feature when viewed over the prior art they do not have single general inventive concept and lack unity of invention.

Art Unit: 1644

- III. Accordingly, Groups 1-2 are not so linked as to form a single general inventive concept and restriction is proper.
- IV. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
- V. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuong Huynh "NEON" whose telephone number is (571) 272-0846.
